

The new Brussels effect: Why the EU increasingly shapes the space for civil society, and how to respond

Unpacking the ECF Civic Space Report

WEDNESDAY 13 MAY 14:30-18:00
EUROPEAN PARLIAMENT, BRUSSELS

Europe is witnessing a dangerous and unprecedented rollback of fundamental rights, with civil society regularly targeted. Increasingly, these attacks are being “Europeanised” at the EU level. At the same time, positive developments like the Civil Society Strategy show that there is an increasing recognition of the democratic value of civil society. How should we respond to this new “Brussels effect”?

Join us for the launch of the European Civic Forum’s annual Civic Space Report where civil society actors, human rights defenders, MEPs, and UN officials will explore this question and the wider state of civic space in 2026.

RVSP here!
